

SAFE TO HOST

THIS COMPLIANCE CERTIFICATE IS PRESENTED TO

Organization	TrioTree Technologies Private Limited
Application	HISTree M1, M2 & M3 APIs
Type of Audit	API Testing
URL	List attached in Annexure I
Initial Testing	26/11/2024 - 29/11/2024
Re-validation	05/12/2024 - 10/12/2024
Report ID	R2411063
Hash	9B93E71E283C99634E5399785DCA456B 86AD0C82BB6978D61B4084BA8E16E0C7

CONCLUSION/s

- The **application testing** has been **completed** on the provided **testing/staging environment**, and the checksum (Hash Value) of the patched code is mentioned in the certificate.
- Ensure that the patched code is deployed in the production/live environment immediately following the issuance of this certificate. Failure to deploy the patched code will leave the application in the production/live environment susceptible to vulnerabilities.
- The said application/s is safe for hosting with privileges of read permission for general public.

RECOMMENDATION/s

- Application should be deployed on hardened Server & Operating System.
- SSL should be deployed before putting on the production server.
- The certificate is valid for **ONE YEAR** from the date of issue or **till any changes made in the code of the application or any new vulnerability is discovered whichever is earlier.**
- Conduct proactive testing periodically & ensure any new changes introduced in the application undergo a security testing before they are published on the network.
