This to certify that the tested application hosted of the current version is audited by **Entersoft Information Systems Private Limited** (A CERT-In Empaneled Organization Wide Letter No: 3(15)/2004-CERT-In (Vol. XIII) dated: 15-December-2023) and it is free from OWASP vulnerabilities, and any known severe web vulnerability/threat.

Respectively it is safe for hosting and to carry out transaction

The application has passed Critical / High / Medium vulnerabilities for application security assessment tests.

For a detailed description of vulnerabilities severity issues and other security assessment related details, please refer to the audit report shared with **Suvarna Technosoft Pvt Ltd**

It is also recommended that the application be hosted with read and script execution permissions for public access, ensuring it mirrors the audited URL exactly in the production environment.

**Certificate Validity:** The certificate is valid until the code changes.

**Note:** Our opinion is valid for the period during which the changes are not made in the source of tested application thus any changes in the system will require a re-audit of application's new version. Projections of any conclusions based on our current findings will not be applicable and must be altered for future periods and the application of new versions will be subject to any risks because of changes made to the application or system. Also, we recommend that Web Server and OS level hardening need to be in place for the production server.
