Safe to Host Certificate

To Whom So Ever It May Concern

QRC Assurance and Solutions Pvt Ltd (QRC), empanelled by CERT-IN, confirms that **Oakland Systems Private Limited** has engaged QRC as their Security Auditor to perform **Web Application Security Testing** as detailed below.

Application Type	Application Name	URL / Version	Environment
Web	MEDNET LABS	https://wasatest.mednetlabs.com/	UAT

The Web Applications Security Testing was conducted from August 04, 2026, to August 20, 2026, and was completed successfully. The security tester found no exploitable vulnerabilities, and the report status is "Pass." The application passed assessments for all vulnerability levels and is free from OWASP vulnerabilities and known threats, making it safe for hosting.

Our opinion is valid for the period during which the changes are not made in the source of tested application thus any changes in the system will require to re-audit of application's new version. Projections of any conclusions based on our current findings will not be applicable and has to be altered for future period and application new versions is subject to any risks because of changes made to the application or system. Also, we recommend that Web Server and OS level hardening need to be in place for production server.
